

Information for Knead Website

Q) What is the primary goal of the website?

- *To provide details of mental health services offered by therapists and/or mental health professionals.*
- *The website can act as a start point to discover the kind of services we offer, pricing and how to get in touch with us.*

Q) Who are your ideal users/customers?

- *Anyone in the age groups of 18-40 from diverse backgrounds.*

Q) What action do you want the users to take?

- *Want users to access links and information about our services.*

Q) What makes your business unique?

- *We provide accessible mental health service and help clients ease into understanding of mental health. We look at mental health as a complex network of emotions between the individual, the community and the world at large. We recognise the various contexts that rely on our mental health and its flexibility.*

Q) Send me links of some websites you like and highlight why you like them.

Some websites I like

<https://www.kahamind.com/> - *I like their simplicity and effectiveness. Its rich in art and captures your sight at the first visit. Their social media page is also a treat.*

<https://5scontent.com/homepage/> - *Again very simplistic in a cool way, minimal text, maximal impact and understanding.*

<https://poolsuite.net/> - *I like the innovation and the retro vibes, not really apt for our services but I like that it provides an experience for the user.*

Q) What pages do you need? (Eg. Home, about us, contact, etc)

About

- Bio

-Our professionals
